Yannis li: (08:06) Hi Jari, we are reviewing the Action Items from the Face-to-Face meeting
which is Agenda Item 1.2

Jari Arkko: (08:06) is kavous talking about that, or already on the next agenda item=

Sherly Haristya: (08:08) If I may point it out, Mr. Arasteh's request has been raised in the

Lynn St.Amour: (08:14) yes, acceptable to me

Mohamed El Bashir: (08:14) Yes, acceptable

Manal Ismail: (08:14) fine with me too

Jari Arkko: (08:14) Re: f2f minutes - Section 5 - I think there was a question about jurisdiction which was resolved at the f2f meeting, but we decided to ask a question relating to trademarks and domain names. Not a question about jurisdiction.

Alan: (08:15) Alan Barrett joins. I was able to change my travel arrangements, but I had trouble starting adobe connect.

Yannis li: (08:16) Thanks Alan. Noted your attendance

John Savage: (08:16) In Item 6, second bullet, how is the community defined that would own the intellectual property rights related to IANA and how would this community function?

Alan Barrett (NRO): (08:16) Please could my audio be enabled.

Yannis li: (08:16) It's enabled now.

Daniel Karrenberg: (08:17) alan, please mute

Jari Arkko: (08:17) noise on the line, at least for me

Manal Ismail: (08:17) too much noise on the line now

RussMundy: (08:17) +1 to noise

demi getschko: (08:21) consensus on noise... :-)

demi getschko: (08:22) (audio ok now...)

Mohamed El Bashir: (08:22) its OK on my side

RussMundy: (08:22) noise now seems to be gone

Daniel Karrenberg: (08:23) noise appears to have come from alan

RussMundy: (08:23) +1 to Jari's last comment

Russ Housley: (08:24) Agree with Jari. He is right that the ICG members cannot change the community proposal

Russ Housley: (08:24) The MOU between ICANN and the IETF include the following:

Russ Housley: (08:25) 4.1. The IANA will assign and register Internet protocol parameters only as directed by the criteria and procedures specified in RFCs, including Proposed, Draft and full Internet Standards and Best Current Practice documents, and any other RFC that calls for IANA assignment. If they are not so specified, or in case of ambiguity, IANA will continue to assign and register Internet protocol parameters that have traditionally been registered by IANA, following past and current practice for such assignments, unless otherwise directed by the IESG. If in doubt or in case of a technical dispute, IANA will seek and follow technical guidance exclusively from the IESG. Where appropriate the IESG will appoint an expert to advise IANA. The IANA will work with the IETF to develop any missing criteria and procedures over time, which the IANA will adopt when so instructed by the IESG.

Russ Housley: (08:25) 4.2. In the event of technical dispute between the IANA and the IESG, both will seek guidance from the IAB whose decision shall be final.

Jon Nevett: (08:25) I'm not on the CWG, but I know that there is a face to face meeting upcoming in two weeks

Jon Nevett: (08:26) Sidley & Austin

Jari Arkko: (08:28) it is a bit sad if we do not get an update from CWG...

Mary Uduma: (08:28) My mic is muted so I could not speak. I participate in the cwg

Mohamed El Bashir: (08:28) Thanks Mary,

Mohamed El Bashir: (08:30) Yes, we can hear

Manal Ismail: (08:30) yes we can hear u Mary

Jean-Jacques Subrenat: (08:35) Mary's audio is patchy...

Mohamed El Bashir: (08:35) Lots of echo

Yannis li: (08:35) Hi Mary could you please kindly mute yourself when you are not speaking

Yannis li: (08:36) Thank

Alan Barrett (NRO): (08:41) I was disconnected and reconnected

Jean-Jacques Subrenat: (08:48) @Mohamed, I prefer this to be ICG.

Jean-Jacques Subrenat: (08:49) @Daniel +1.

Lynn St.Amour: (08:49) +1 Daniel and Jean-Jacques

Mohamed El Bashir: (08:50) The proposed messaging is investigated for ICG only related work not the overall oversight

Mohamed El Bashir: (08:50) overall transition

Jean-Jacques Subrenat: (08:51) @Lynn, I agree that the ICG message should be clear... AND DISTINCT.

Jari Arkko: (08:51) I think we need a lot of communication. But I 150% agree with Lynn that the messaging is hugely important. The nuances are very important.

Mohamed El Bashir: (08:52) +1 Lynn and Jari

Daniel Karrenberg: (08:52) to be clear: i was referring to communicating out the ICG work, not communicating about work of the other players

Jean-Jacques Subrenat: (08:53) Mohamed (as Vice-Chair): I'd be glad to engage in the efforts within ICG for future awareness, infographics, media messages.

Mohamed El Bashir: (08:54) noted JJS

Daniel Karrenberg: (08:55) i have another appointment in 10 minutes (5 minutes past the hour). if the call is still going i will silently drop off.

Mohamed El Bashir: (08:57) noted Daniel

Lynn St.Amour: (08:59) @Mary, this entire ICG process is the community's process defined by the community and approved by the communities.

Mohamed El Bashir: (08:59) I suggest that the chairs to check the possibility of using our secretariat to develop the required messaging/infographs as first preference and feed ICG back

James Bladel-GNSO: (09:00) Apologies, but I need to drop at the top of the hour.

Lynn St.Amour: (09:00) @Mohamed, I think that is a good approach.

Manal Ismail: (09:00) if current secretariat is capable this is optimum ..

RussMundy: (09:01) I support the secretariat based approach

Russ Housley: (09:01) Thanks to all
