Visvak: (07:51) <QUESTION> Will the proposed changes to the process of administration of the internet affect end users in any perceptible manner? If yes, specify what kind of changes they can expect. <QUESTION>

shailesh lakhtakia: (07:51) How is PTI different from the current IANA.

Manal Ismail: (07:51) @Mr Arasteh I was jsut thanking Alissa for the reply .. I do not have any further comments ..

ARASTEH: (07:52) ok

Sherly Haristya: (07:52) Hi Shailesh Lakhtakia, may I confirm to label it as [QUESTION]?

padmini: (07:52) QUESTION: Do the different oversight bodies (IFRs, IAB) have an entirely independent constitution from ICANN or the IETF?

shailesh lakhtakia: (07:52) Any details how the PTI Board would be constituted?

shailesh lakhtakia: (07:53) Dear Sherley. This is a question.

Sherly Haristya: (07:53) Ok, noted.

Tijani BEN JEMAA (ALAC): (07:54) Question: Do the CRISP and the IETF accept that there is legal separation between ICANN and PTI and the separability proposed by the CWG?

zhenglei: (07:54) <QUESTION>what are the main body of global multistakeholders should be to achieve the maximum fairness?<QUESTION>

Mr. Matogoro from Tanzania: (07:56) Can you please elaborate more on "Ownership of the IANA trademark and domain be transferred to the IETF Trust" in slide# 23

Boyoung Kim: (07:57) <Question>Just for the clarification. Who does IETF sign up for MOU with? ICANN? PTI?Who do RIRs sign up for SLA with?ICANN? PTI? Currently, IETF and RIRs are having MOU with ICANN as a IANA function operator. Does it mean new MOU and SLA should be with PTI(as IFO)? ICANN? Thank you<Question>

padmini: (07:57) Your voice is cracking up

padmini: (07:57) cracking*

Lynn St.Amour: (07:57) @ICG members: the question: "Do the different oversight bodies (IFRs, IAB) have an entirely independent constitution from ICANN or the IETF? " would be a good addition to our FAQ (pulled apart for each OC's process"

Sherly Haristya: (07:57) @Mr. Matogor, may I confirm with you to label it as [QUESTION]?

ARASTEH: (07:57) Alissa

Mr. Matogoro from Tanzania: (07:57) <Question> Can you please elaborate more on "Ownership of the IANA trademark and domain be transferred to the IETF Trust" in slide# 23

zhenglei: (07:57) <QUESTION>what are the main body of global multistakeholders should be to achieve the maximum fairness?<QUESTION>

ARASTEH: (07:57) there was a question about PTI BOARD

zhenglei: (07:58) <QUESTION>what are the main body of global multistakeholders should be to achieve the maximum fairness?<QUESTION>

Xiaodong Lee: (07:58) Lynn, +1

Daniel Karrenberg: (07:58) @lynn: good idea.

Sherly Haristya: (07:59) @Mr. Matogoro, we note your question. Thank you.

Lynn St.Amour: (08:00) Manal, could you and I agree to look at all the questions and suggest some additional FAQ questions? You are excellent at this :-)

zhenglei: (08:00) thank you

ARASTEH: (08:00) We need to answer that question as well

Yannis li: (08:01) @Keith, your audio is enabled. You may connect your microphone

Lynn St.Amour: (08:01) Keith's mike is "on"

Eric Evrard: (08:01) Audio enabled, but need to connect Microphone.

Lynn St.Amour: (08:02) @Kavouss, agree - there are a lot of good questions we could look at incorporating

RussMundy-SSAC: (08:03) sorry, I was speaking but it didn't seem to be getting through

Manal Ismail: (08:03) this is a quote from the proposal "PTI will be a new legal entity in the form of a non-profit corporation (i.e., a California public benefit corporation). The existing IANA functions department, administrative staff, and related resources, processes, data, and know-how will be legally transferred to PTI.8 No further transfer of assets from PTI to another entity will be allowed unless specifically approved by ICANN."

zhenglei: (08:04) <QUESTION>now the United States exerts too much control and influence on the internet,so how to transfer the IANA stewardship transition could achieve the maximum fair?<QUESTION>

Jennifer Chung: (08:04) @ICG members - your mics have been enabled - we ask you to please connect your mics on your computers.

zhenglei: (08:04) <QUESTION>now the United States exerts too much control and influence on the internet,so how to transfer the IANA stewardship transition could achieve the maximum fair?<QUESTION>

Manal Ismail: (08:05) This is again a quote from the names proposal "The construct of the PTI Board will be a range of 3-5 people to be appointed by ICANN as the sole member of PTI. The PTI Board could be comprised of three directors who are employed by ICANN or PTI (for example, the ICANN Executive responsible for PTI, the ICANN CTO and the IANA Managing Director), and two additional independent directors. The two additional directors must be nominated using an appropriately rigorous nomination mechanism (e.g. through the use of the ICANN Nominating Committee)."

zhenglei: (08:06) <QUESTION>now the United States exerts too much control and influence on the internet,so how to transfer the IANA stewardship transition could achieve the maximum fair?<QUESTION>

zhenglei: (08:06) THANK YOU

Jennifer Chung: (08:07) @zhenglei - we have noted your question thank you

Jennifer Chung: (08:07) @everyone - we have noted your questions <QUESTION> as you post in this chat box and they will be read out loud and answered in order.

Visvak: (08:08) <QUESTION>Is the PTI only accountable to RIRs & ICANN or does its geographical location in the US open it up to interference from governmental bodies?<QUESTION>

Tijani BEN JEMAA (ALAC): (08:11) Question: So I understand from your answer that you (Protocols ans Numbers) don't mind that PTI may be structurally separated from ICANN since this option is envisaged by the CWG

Lynn St.Amour: (08:12) @Zhenglei - there is not one transfer or one transition of the IANA Stewardship role (that is the oversight role) as that responsibility is being assumed across the three Operating communities where it has largely lived anyway. Those different processes (and the

OC's) are each open and inclusive and operate under consensus policies and that is what gives this work good global participation helping to ensure fairness.

Mohamed El Bashir: (08:13) yes, Tijani .. both communities did not raised concerns on the separation between ICANN and its legally subsidiary

Izumi Okutani (ASO): (08:13) THE CRISP team will also be reviewing the options shared in the CWG on IPR and will be communicating with the CWG chairs closely on the status of discussions (Izumi-CRISP Team)

Alain Bidron GNSO-CSG-ISPCP: (08:13) <Question> Wull th SLA between the RIRs and ICANN be one single agrrement or 5 individual agreements (1 per RIR) with identical content?<Question>

Alan Barrett (NRO): (08:16) @Alain: see draft sla at <https://www.nro.net/news/call-for-comments-for-the-second-draft-sla-for-the-iana-numbering-services> the idea is a single contract with six signatories: ICANN and the five RIRs

Daniel Karrenberg: (08:17) i can give it a shot

Alain Bidron GNSO-CSG-ISPCP: (08:18) @Alan : Thanks

Daniel Karrenberg: (08:19) no

RussMundy-SSAC: (08:19) I'll try if I have audio

Daniel Karrenberg: (08:20) i answered that i had nothing to add to lynn's answer on the bridge but was not heard obviously.

RussMundy-SSAC: (08:21) I tried speaking again on the audio bridge but apparently was not heard

Patrik Fältström: (08:22) No, you where not heard :-(

Jennifer Chung: (08:22) @Russ are you on the phone bridge?

RussMundy-SSAC: (08:23) Lynn's last intervention covered most of what I was going to say

Jennifer Chung: (08:23) @Russ - noted.

RussMundy-SSAC: (08:23) yes, phone bridge

Jennifer Chung: (08:23) I'll alert the operators regarding your line, Russ and Daniel

Joseph Alhadef: (08:24) I too am not in a position to use the mike, but to expand on Lynn's point, the jurisdiction issue for the IANA trnasitions is about the corporate performance under the applicable corporate law, not the operational dynamics of IANA.

Lynn St.Amour: (08:25) @Joe, well said.

Asha Hemrajani: (08:25) <Question> has there been any pros/cons/risk analysis done on the transfer of the IANA trademark to the IETF trust

Jean-Jacques Subrenat: (08:25) @Joe +1. But seen from outside the US, the difference between those 2 aspects is not so clear.

Lynn St.Amour: (08:27) @J-J - it is less about understanding US corporate law and more about understanding how the IANA works.

Tijani BEN JEMAA (ALAC): (08:27) QUESTION: Sorry, the CWG proposes not only legal separation, but a full separation in case the names community find it necessary.. Is this is ok for the numbers and protocols communities

Izumi Okutani (ASO): (08:29) As mentioned earlier CRISP Teeam is preparing to share our observation (CRISP)

Jean-Jacques Subrenat: (08:29) @Lynn: indeed. But many users are at that level of comprehension. And that is why these 2 webinars are useful and timely.

Asha Hemrajani: (08:30) very bad echo on the phone line

Kuo Wu: (08:30) Asha, lower your mic as I did... :-)

Jennifer Chung: (08:31) @Asha - you can mute your computer speaker if you are dialed into the phone lines as well to minimize echo.

Asha Hemrajani: (08:31) @izumi, is that observation you are referring to in regards to the transfer of trademark ownership?

Joseph Alhadeff: (08:31) To facilitate the diffusion of some of the clarifications which these webinars are hopefully providing, we should add the recurring questions to the FAQ if they are not already addressed there.

padmini: (08:31) QUESTION: How much is the interaction and overlap between the IETF and ICANN with respect to Trademarks? QUESTION.

Asha Hemrajani: (08:32) @jennifer and Kuo wu, yes my computer speaker is muted

Manal Ismail: (08:32) +1 Joe ..

Lynn St.Amour: (08:33) @Joe, yes, I volunteered to do that and asked for partners? Are you willing?

Avri Doria: (08:33) While unlikely, isn't it possible that the Names community could decide ,through their IFR and seperation process to move the Names functions elsewhere, while the Numbers and Protocol communities stayed with ICANN. or vis versa.

Joseph Alhadeff: (08:33) yes.

Jennifer Chung: (08:33) @padmini - you may send your question to question-icg@ianacg.org where it will be publicly archived and will be answered

Asha Hemrajani: (08:33) I couldn't hear Alan's response to my question at all and most of Alissa's response, I hope I can read it on the transcript

Tijani BEN JEMAA (ALAC): (08:35) Thx

Lise Fuhr: (08:35) Thank you for a very informative webinar- bye

Jean-Jacques Subrenat: (08:35) Thank you all.

RussMundy-SSAC: (08:35) Thanks to everyone for joining
